INFLUENCERS**

Project CHILD ("Caring and Helping Individual Learners for Development") is an initiative that emphasizes the importance of individualized support for student growth and development. Caring and Helping Individual Learners for Development suggests a focus on individualized support and development for learners. This approach emphasizes providing personalized care and assistance to meet the unique needs of each student, fostering their personal and academic growth. It could involve various strategies.

In upholding the right of the child to special protection and to reiterate its policy of zero tolerance for any act of abuse and violence against the child, DepEd issued DepEd Order No. 40, Series of 2012, also known as the "Child Protection Policy." Thru this Policy, the Department of Education aims to: 1) ensure that all schools are conducive to the education of children and 2) ensure such special protection from all forms of abuse and exploitation.

A safeguarding or child protection policy statement makes it clear that schools including Manuel Luis Quezon High School (MLQHS) shall keep children safe. It should set out the more detailed policies and procedures our school will put in place to keep the learners safe and respond to child protection concerns. Safeguarding and Child Protection Policy include Attendance, Health and safety of the learners, Bullying,

(including cyber-bullying), Anti-discrimination, Physical intervention, Meeting the needs of pupils with medical conditions, First Aid, Drug and substance misuse.

Towards this end, the Department of Education (DepEd), in collaboration with its partners and stakeholders, shall ensure that all schools are conducive to the education of children. Teachers and learning facilitators especially in learning centers are their substitute parents and are expected to discharge their functions and duties with this in mind. In this connection, the Family Code empowers the school, its administrators and teachers, or the individual, entity or institution engaged in childcare to exercise the special parental authority and responsibility over the child, while under their supervision, instruction or custody.

Hence, this PROJECT C.H.I.L.D. Caring and Helping Individual Learners for Development-A Child Protection Policy Implementation Innovation of Manuel L. Quezon High School).
